

WAYNE TOWNSHIP

RESOLUTION # 4
OF 2012

Rules, Regulations

To Implement Ordinance # 1 of Holding Tank Ordinance.
In accordance with Ordinance # 1, the Township of Wayne herewith resolves
to enact the following Sewage Holding Tank Regulations.

1. Utilize Department of Environmental Protection form #3620-FM-WQ0290, as revised, the applicant/owner will make application to the Township for the installation of a sewage holding tank.
2. The applicant/owner will pay the fees as herewith established.
3. The applicant/owner is responsible to submit holding tank pumping slips along with a report of condition by the authorized pumper.
4. The applicant/owner will pay for annual inspection by the Township of Wayne's Sewage Enforcement Officer with the first inspection to occur six months after installation and every year annual from that date.
5. The Township of Wayne will exempt all temporary holding tanks from the planning requirements of the Department of Environmental Protection. As authorized by the department, such installations are limited to eighteen (18) months.
6. The Sewage Enforcement Officer will issue a permit for the installation of holding tanks if the applicant is found to meet all applicable laws regulating.
7. Upon installation inspection, the Wayne Township Secretary will issue an annual license for operation as such license must be applicable for and issued as the end of 1 year.
8. An individual sewage system and holding tank agreement must be executed prior to construction permit issuance. Operation and maintenance is required for those systems and the escrow of funds to guarantee such is required at the time of license issue.
9. Only domestic sanitary sewage waste may be discharged to the holding tank.
